- Mark forms as private
- Audit trail across all forms

Work Faster - Smart Automation

- Automated financial calculations
- Pre-populated practice and court details
- Clause and attestation libraries

Tried and tested

“FormEvo’s cloud-based legal forms make life simple. The forms solution is easy to use, and the admin time saved with fee earners has had a massive impact on the amount of fees they can produce. We didn’t go out looking for tools such as digital filing of eAP1’s and digital signatures so this is a real bonus for us”.

IT Manager, Birchall Blackburn

Forms Reimagined Move beyond the outdated with FormEvo.
